# Journal of Safety Research Annual Index

## Volume 25/1994

**Authors:**

Asalor, J. O., Onibere, E. A., & Ovuworie, G. C. Pure circumstance in road traffic accidents. 25(1):47–60.

Bhattacherjee, A., Ramani, R. V., & Natarajan, R. Time series analysis of coal mine accident experience. 25(4):229–234.

Cohen, H. H., & Cohen, D. M. Psychophysical assessment of the perceived slipperiness of floor tile surfaces in a laboratory setting. 25(1):19–26.

Cohen, H. H., & Cohen, D. M. Perceptions of walking surface slipperiness under realistic conditions, utilizing a slipperiness rating scale. 25(1):27–31.

DeJoy, D. M. Managing safety in the workplace: An attribution theory analysis and model. 25(1):3–17.

Fife, D., & Goldoft, M. Swimming capabilities and swimming exposure of New Jersey children. 25(3):159–165.

Haight, F. A. Why is the traffic safety community so often hostile to research? 25(1):1–2.

Jones, B. The effectiveness of provisional licensing in Oregon: An analysis of traffic safety benefits. 25(1):33–46.

Lee, Y.-H., & Chiou, W.-K. Risk factors for low back pain, and patient-handling capacity of nursing personnel. 25(3):135–145.

Lehto, M. R., James, D. S., & Foley, J. P. Exploratory factor analysis of adolescent attitudes toward alcohol and risk. 25(4):197–213.

Levy, M. Letter to the editor. 25(3):125–126.

McCaig, L. F., & Graitcer, P. L. Epidemiology of injury-related visits to office-based physicians in the United States, 1991. 25(2):77–81.

Miller, T., Douglass, J., & Pindus, N. Railroad injury: Causes, costs, and comparisons with other transport modes. 25(4):183–195.

Myers, J. R., & Fosbroke, D. E. Logging fatalities in the United States by region, cause of death, and other factors — 1980 through 1988. 25(2):97–105.

Pineault, M. Rossignol, M., & Barr, R. G. Inter-rater analysis of a classification scheme of occupational fatalities by electrocution. 25(2):107–115.

Reinfurt, D. W., Green, A. W., Campbell, B. J., & Williams, A. F. Survey of attitudes of drivers in air bag deployment crashes. 25(3):147–157.

Rodgers, G. B. The characteristics and use patterns of bicycle riders in the United States. 25(2):83–96.

Preusser, D. F., Williams, A. F., & Weinstein H. B. Policing underage alcohol sales. 25(3):127–133.

Smith, L. E. National estimates of U.S. fire-related injuries: An improved procedure. 25(4):221–227.

Streff, F. M., Molnar, L. J., & Christoff, C. Automatic safety belt use in Michigan: A two-year follow-up. 25(4):215–219.

Waller, J. A., Zhu, Z., Jacobsen, J. L., & Jacobsen, S. D. A preliminary study of the effects of computer glasses on reported VDT user symptoms: A field study. 25(2):67–76.

Williams, A. F., Hall, W. L., Tolbert, W. G., & Wells, J. K. Development and evaluation of pilot programs to increase seat belt use in North Carolina. 25(3):167–175.

**Titles:**

Automatic safety belt use in Michigan: A two-year follow-up. 25(4):215–219.

The characteristics and use patterns of bicycle riders in the United States. Rodgers, G. B. 25(2):83–96.

Development and evaluation of pilot programs to increase seat belt use in North Carolina. Williams, A. F., Hall, W. L., Tolbert, W. G., & Wells, J. K. 25(3):167–175.

The effectiveness of provisional licensing in Oregon: An analysis of traffic safety benefits. Jones, B. 25(1):33–46.

Epidemiology of injury-related visits to office-based physicians in the United States, 1991. McCaig, L. F., & Graitcer, P. L. 25(2):77–81.

Exploratory factor analysis of adolescent attitudes toward alcohol and risk. Lehto, M. R., James, D. S., & Foley, J. P. 25(4):197–213.

Inter-rater analysis of a classification scheme of occupational fatalities by electrocution. Pineault, M., Rossignol, M., & Barr, R. G. 25(2):107–115.

Letter to the editor. Levy, M. 25(3):125–126.

Logging fatalities in the United States by region, cause of death, and other factors — 1980 through 1988. Myers, J. R., & Fosbroke, D. E. 25(2):97–105.

Managing safety in the workplace: An attribution theory analysis and model. DeJoy, D. M. 25(1):3–17.

National estimates of U.S. fire-related injuries: An improved procedure. Smith, L. E. 25(4):221–227.

Perceptions of walking surface slipperiness under realistic conditions, utilizing a slipperiness rating scale. Cohen, H. H., & Cohen, D. M. 25(1):27–31.

Policing underage alcohol sales. Preusser, D. F., Williams, A. F., & Weinstein H. B. 25(3):127–133.

A preliminary study of the effects of computer glasses on reported VDT user symptoms: A field study. Waller, J. A., Zhu, Z., Jacobsen, J. L., Jacobsen, S. D. 25(2):67–76.

Psychophysical assessment of the perceived slipperiness of floor tile surfaces in a laboratory setting. Cohen, H. H., & Cohen, D. M. 25(1):19–26.

Pure circumstance in road traffic accidents. Asalor, J. O., Onibere, E. A., & Ovuworie, G. C. 25(1):47–60.

Railroad injury: Causes, costs, and comparisons with other transport modes. Miller, T., Douglass, J., & Pindus, N. 25(4):183–195.

Risk factors for low back pain, and patient-handling capacity of nursing personnel. Lee, Y.-H., & Chiou, W.-K. 25(3): 135–145.

Survey of attitudes of drivers in air bag deployment crashes. Reinfurt, D. W., Green, A. W., Campbell, B. J., & Williams, A. F. 25(3):147–157.

Swimming capabilities and swimming exposure of New Jersey children. Fife, D., & Goldoft, M. 25(3):159–165.

Time series analysis of coal mine accident experience. Bhattacherjee, A., Ramani, R. V., & Natarajan, R. 25(4):229–234.

Why is the traffic safety community so often hostile to research? Haight, F. A. 25(1):1–2.
